COMPANY OVERVIEW

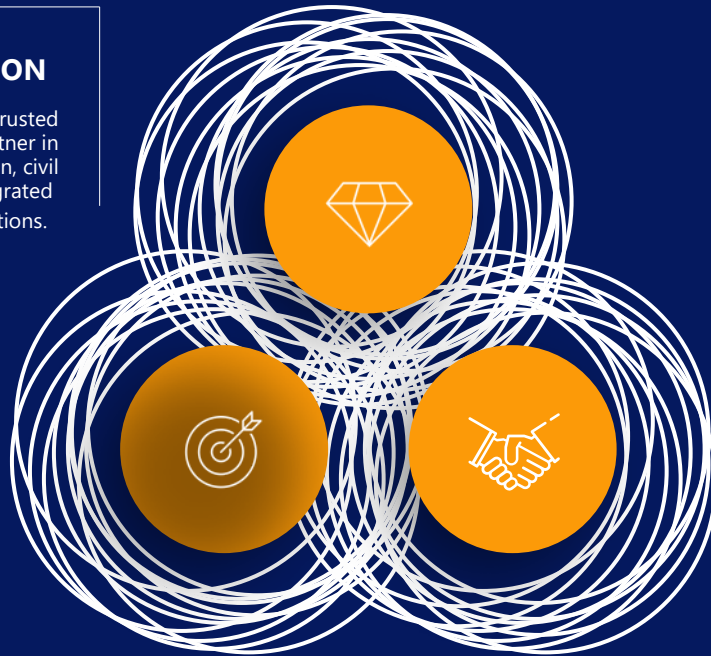

Zentro Contracting (ZENTRO) is a Zambian engineering and construction solutions provider specializing in Bulk Storage Tank Construction, Civil Engineering, and General Supply services across the construction and mining industries. Registered and fully compliant with all national and industry regulatory bodies, Zentro has earned a reputation for reliability, precision, and delivery on large-scale industrial projects.

OUR VISION

To be Zambia's most trusted and innovative partner in industrial construction, civil engineering, and integrated supply solutions.

OUR VISION

To deliver safe, sustainable, and high-quality engineering and construction solutions that empower industries, support national development, and exceed client expectations.

OUR CORE VALUES

Integrity: We uphold the highest ethical standards in every project.

Quality: We deliver work that meets and surpasses industry benchmarks.

Safety: We prioritize people, environment, and equipment.

Innovation: We adopt modern technologies and improved methods.

Client Commitment: We build long-term, value-driven partnerships.

Teamwork: We empower our workforce to learn, grow, and excel.

From our dual operating bases in Lusaka and Solwezi, Zentro serves clients across Zambia, emphasizing quality workmanship, adherence to safety standards, and cost-effective project execution. The company combines technical expertise, modern equipment, and a skilled workforce to deliver turnkey solutions that meet international standards.

// At Zentro, we exist to build infrastructure that strengthens industries and empowers communities. Our commitment to quality, safety, and innovation shapes every project we deliver.

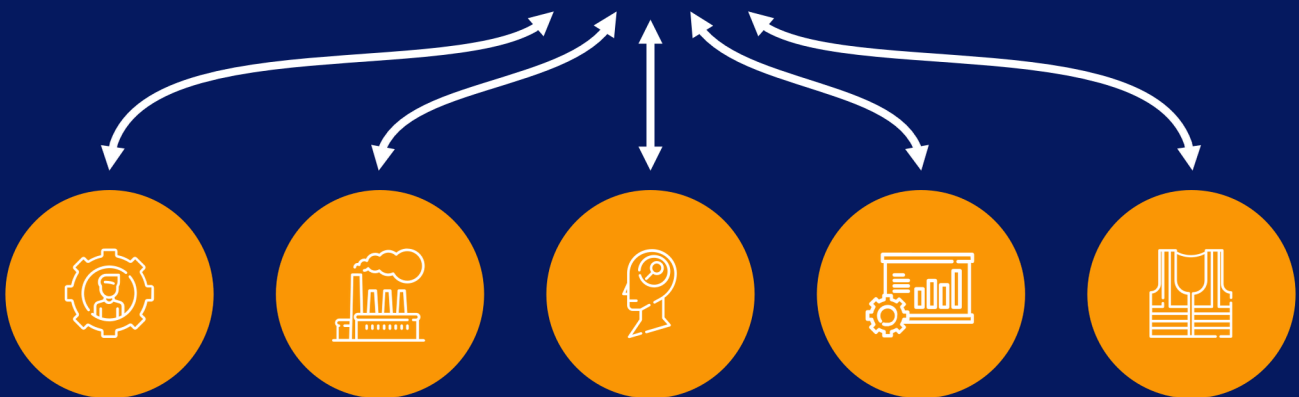

CORPORATE STRUCTURE & REGULATORY COMPLIANCE

Zentro is governed by a competent management team with extensive experience in engineering, construction management, procurement, project supervision, and regulatory compliance.

Managing Director

(Provides strategic leadership and ensures operational alignment with company goals.)

Operations Department

(Oversees project execution, quality control, and technical teams.)

Engineering & Technical Department

(Responsible for design, engineering solutions, and on-site technical implementation.)

Procurement & Supply Chain Management Department

(Manages sourcing, vendor relations, and logistical support.)

Finance & Administration Department

(Handles financial planning, budgeting, and corporate administration.)

Health, Safety & Environment (HSE) Department

(Ensures site safety, risk assessments, and regulatory compliance.)

OUR REGULATORY COMPLIANCE POSTURE

Zentro is governed by a competent management team with extensive experience in engineering, construction management, procurement, project supervision, and regulatory compliance.

// Our corporate structure is designed for precision, accountability, and seamless execution. Every department at Zentro plays a defined role in ensuring projects are delivered safely, efficiently, and to the highest standard. //

OUR SERVICES PORTFOLIO

Zentro delivers a comprehensive range of engineering, construction, and industrial support services designed to meet the evolving needs of Zambia's construction, mining, energy, and manufacturing sectors. Our service portfolio is built on technical expertise, modern equipment, and a disciplined project management approach that ensures every task is executed safely, efficiently, and to the highest quality standards. Whether constructing large-scale storage tanks, delivering precision civil works, or supplying critical materials to industrial operations, Zentro provides integrated solutions that help clients operate more reliably, sustainably, and cost-effectively. Our aim is to be the trusted partner that brings engineering excellence and dependable delivery to every project.

BULK STORAGE TANK CONSTRUCTION

We construct high-capacity storage tanks for industrial, commercial, and mining applications. Our services include:

DESIGN AND FABRICATION OF STEEL STORAGE TANKS

This stage involves creating engineering designs, selecting materials, cutting steel plates, welding components, and preparing all structural parts required to assemble the tank.

ERECTION AND INSTALLATION OF ABOVE-GROUND TANKS

All fabricated components are transported to site and assembled. The tank shell, bottom plates, roof, and structural fittings are erected and securely installed on prepared foundations.

PIPELINE CONNECTION AND INTEGRATION

The completed tank is connected to inlet, outlet, vent, overflow, and drain pipelines. All mechanical interfaces are aligned and integrated into the client's existing system or new infrastructure.

NON-DESTRUCTIVE TESTING (NDT) AND PRESSURE TESTING

Quality and safety checks are carried out to confirm the structural integrity of the tank and all welded joints. Techniques such as ultrasonic testing, radiography, and hydrostatic pressure tests ensure the tank meets

required standards.

TANK REHABILITATION, MAINTENANCE, AND UPGRADES

After the tank has been in service, periodic repairs, cleaning, re-lining, component replacement, or structural upgrades are performed to extend lifespan and maintain performance

END-TO-END SERVICE DELIVERY
BULK STAGETANK CONSTRUCTION
WORK-IN-PROGRESS

As the first Zambian company to build a 1-million-litre tank, our work-in-progress reflects the expertise and ambition that drive everything we do.

From initial site preparation to final commissioning, Zentro delivers complete bulk storage tank solutions with precision, safety, and quality at every stage. Whether work-in-progress or fully operational, our approach ensures reliable, end-to-end service delivery you can trust.

PRESSED GALVANIZED TANKS
OUR TRACK RECORD: 57 PROJECTS

With 57 completed projects across Zambia, we have established a proven record of delivering tanks that meet strict standards for strength, hygiene, corrosion resistance, and operational reliability.

Pressed galvanized tanks remain one of the most reliable, durable, and cost-effective water storage solutions for industrial, commercial, agricultural, and community applications. Zentro supplies, fabricates, and installs high-quality galvanized panel tanks engineered to deliver long-term performance in demanding environments.

APPLICATIONS

- ✓ Industrial and mining water storage
- ✓ Agricultural and irrigation systems
- ✓ Commercial facilities
- ✓ Residential estates
- ✓ Schools, hospitals, and public institutions
- ✓ Emergency and backup water supply

Across all these sectors, our tanks deliver one essential benefit: reliable, adaptable storage solutions built to perform in demanding environments. Whether used in industrial operations, commercial settings, community facilities, or contingency planning, they provide the durability, capacity, and long-term value required to support a wide range of operational needs.

// With 57 installations and counting, Zentro continues to set the benchmark in delivering reliable, long-lasting pressed galvanized tank solutions for industries, communities, and critical infrastructure across Zambia. //

CIVIL ENGINEERING WORKS

We deliver civil engineering services for infrastructure development and industrial projects:

FOUNDATIONS AND STRUCTURAL CONCRETE WORKS

Laying strong, durable bases for buildings, tanks, and industrial structures using reinforced concrete to ensure stability and load-bearing capacity.

DRAINAGE SYSTEMS AND CULVERTS

Designing and installing channels, drains, and culverts to manage stormwater, prevent flooding, and protect infrastructure.

ROAD CONSTRUCTION (ACCESS ROADS, INTERNAL ROADS)

Building paved or gravel roads for industrial sites, connecting facilities, and ensuring safe and efficient transportation within and around project areas.

SITE PREPARATION AND EARTHWORKS

Clearing, leveling, and excavating land to prepare construction sites, including soil stabilization and grading for foundations and structures.

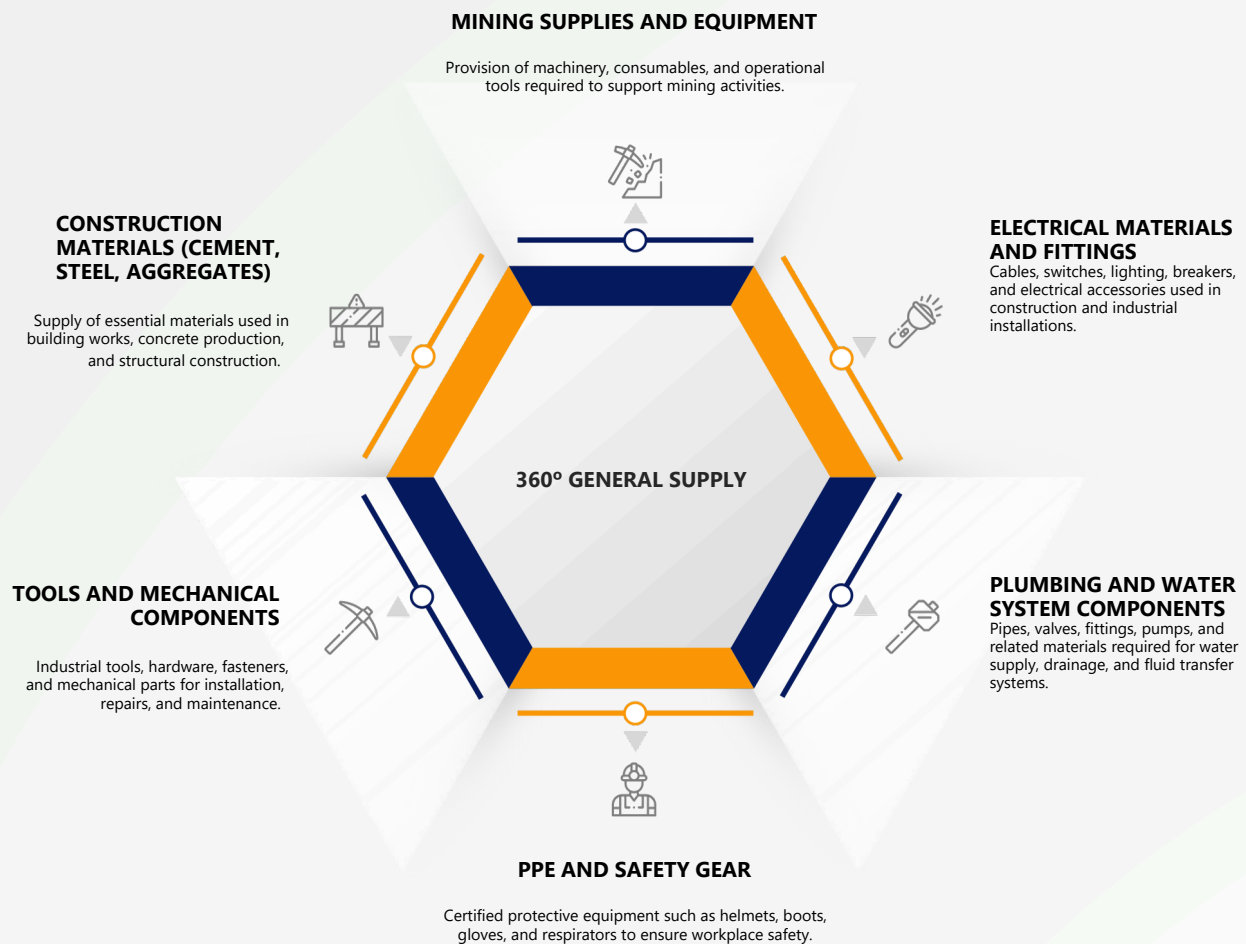

STRUCTURAL STEELWORKS AND PLATFORM CONSTRUCTION

Fabricating and erecting steel frameworks, platforms, and supports for tanks, machinery, or industrial buildings, ensuring strength and durability.

GENERAL SUPPLY (CONSTRUCTION & MINING)

We provide quality and compliant industrial supplies to support construction and mining operations:

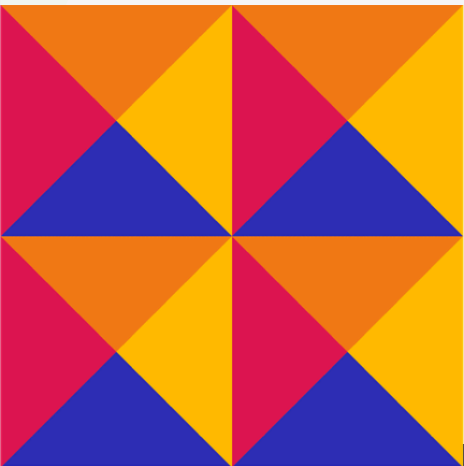

CATALOGUE OF TOOLS AND EQUIPMENT

Our operations are supported by a well-maintained fleet of equipment designed to ensure efficiency, safety, and high-quality project execution. This catalogue highlights the core tools and machinery we deploy across construction, installation, and maintenance projects. Each item is selected to enhance reliability, accelerate timelines, and maintain the exceptional standards our clients expect.

EQUIPMENT CATEGORY	QUANTITY
Concrete Mixers	2 units
Lite Truck	1 unit
Sedan/s	2 units
Van	1 unit
Assorted Power Tools	12 units (mixed set)
Poker Vibrator	1 unit
Generator	1 unit
Mag-Drills	2 units
Access Ladders (12m)	2 units
Scaffolding	12 sets
Dump Levels	2 units
Shovels & Wheelbarrows	Assorted stock

Our operations are supported by a well-maintained fleet of equipment designed to ensure efficiency, safety, and high-quality project execution. This catalogue highlights the core tools and machinery we deploy across construction, installation, and maintenance projects. Each item is selected to enhance reliability, accelerate timelines, and maintain the exceptional standards our clients expect.

// The right tools, in the right hands, make precision possible—and that’s the standard we bring to every project.

PROJECT EXECUTION & QUALITY ASSURANCE

Zentro’s strength lies in its ability to deliver complex engineering and construction projects efficiently, safely, and to the highest professional standards. Our execution framework is built on a disciplined workflow supported by rigorous quality assurance systems that ensure every project meets or exceeds client expectations.

PROJECT EXECUTION PROCESS

We follow a structured, end-to-end project model designed to maintain control, clarity, and consistency at every stage:

QUALITY ASSURANCE FRAMEWORK

Quality is embedded in every stage of our work through a robust QA/QC system that ensures projects are executed with precision and reliability.

QUALITY COMMITMENT	OUR ASSURANCE
Certified Materials & Approved Suppliers	We commit to using only verified, industry-compliant materials sourced from trusted suppliers.
Consistent Testing & Inspections	We maintain strict, ongoing quality checks throughout every project phase.
Independent Quality Verification	We welcome third-party audits to ensure full compliance with national and international standards.
Full Project Documentation	We provide complete records, test results, and close-out reports for transparency and accountability.
Continuous Quality Improvement	We actively refine our processes to deliver even higher levels of safety, efficiency, and performance.

WHY PARTNER WITH ZENTRO

Zentro is a trusted engineering and construction partner across Zambia, delivering safe, reliable, and high-quality solutions to industrial, commercial, and public-sector clients. We combine technical expertise, disciplined project execution, and a commitment to client satisfaction to ensure every engagement delivers lasting value.

1

RELIABLE PROJECT DELIVERY

We ensure that every project is executed efficiently, meeting agreed timelines, budgets, and technical specifications. Clients can trust Zentro to deliver solutions that consistently achieve operational objectives and business goals.

2

SAFETY, COMPLIANCE & QUALITY

Safety, regulatory compliance, and quality are at the heart of everything we do. We implement robust safety protocols, adhere to industry standards, and maintain strict quality control measures to protect people, assets, and the environment while delivering durable, high-performing solutions.

3

TRANSPARENT COMMUNICATION & REPORTING

We prioritize clear and proactive communication with all stakeholders. From project inception to completion, we provide timely updates, detailed progress reports, and complete documentation to ensure clients are fully informed and confident in every decision.

4

SKILLED & CERTIFIED WORKFORCE

Our team of engineers, technicians, and project specialists are highly trained, certified, and experienced in delivering complex industrial, civil, and construction projects. We combine technical expertise with professionalism to ensure every engagement meets client expectations.

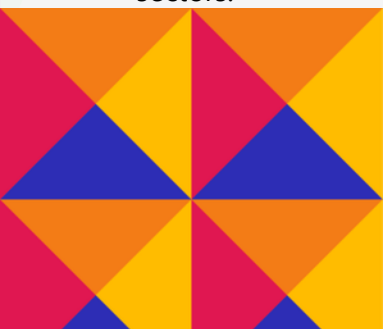

5

PROVEN CAPABILITY & NATIONWIDE REACH

Zentro has successfully executed projects across industrial, commercial, and public-sector sectors. Supported by strategically located offices and workshops, we have the capacity to deliver safe, high-quality solutions anywhere in Zambia, demonstrating both our reliability and operational flexibility.

CLIENTS WE SERVE

Zentro proudly works with a diverse range of respected organizations, providing tailored engineering, construction, and industrial solutions. These partnerships demonstrate our ability to meet complex technical requirements while delivering consistent quality and value across multiple sectors:

// Partnering with Zentro means working with a team committed to delivering safe, reliable, and high-quality engineering and construction solutions. Our expertise, nationwide reach, and focus on client satisfaction ensure every project is completed efficiently, sustainably, and to the highest standards.

SUSTAINABILITY COMMITMENT

// At Zentro, we are committed to sustainable construction practices that protect the environment, optimize energy use, and promote long-term efficiency. Through waste reduction, energy-efficient equipment, environmental monitoring, and green building practices, we strive to// deliver projects responsibly and sustainably.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

At Zentro, we recognize that our success is intertwined with the well-being of the communities in which we operate. Our Corporate Social Responsibility programs are designed to create meaningful impact, support sustainable development, and empower local communities. We are committed to initiatives that foster education, skills development, environmental stewardship, and social welfare, ensuring that our growth benefits more than just our business.

SKILLS TRAINING FOR YOUTH IN WELDING AND FABRICATION

We provide structured training programs to equip young people with practical skills in welding, fabrication, and other industrial trades, enhancing their employability and contributing to workforce development in Zambia.

ENVIRONMENTAL CONSERVATION INITIATIVES

We actively engage in projects that promote environmental sustainability, including tree planting, waste management programs, and community awareness campaigns on environmental protection.

SUPPORT TO COMMUNITY SCHOOLS

Through donations, infrastructure improvements, and educational resources, we help strengthen local schools, enabling children to access better learning environments and opportunities for growth.

DONATIONS TO NON-PROFIT ORGANIZATIONS

Zentro supports NGOs and charitable organizations through financial contributions, materials, and in-kind support to address pressing community needs and social challenges.

We believe that giving back is not just a responsibility but a fundamental part of our mission. By supporting education, skills development, and environmental stewardship, we aim to promote growth, uplift communities, and contribute positively to Zambia's long-term development.

At Zentro, we believe in giving back to the communities that support us. Through skills training, educational support, environmental initiatives, and partnerships with non-profit organizations, we strive to empower people, nurture growth, and create lasting positive impact across Zambia.
